FIVE THOUSAND SLAIN

Adana Red with Blood as Result of Famine Outbreak.

CONSTANTINOPLE, April 20.—No less than 5,000 persons lost their lives in the massacres that have been going on in the vilayet of Adana during the past eight days, as a result of the outbreak of famine and pestilence. Of this total 2,000 were killed in the city of Adana, more than 200 of the victims being Muslims. This information was received in Constantinople through consular channels.

Adana at present is quiet, but there have been renewed attacks on Christians at Marash, in the vilayet of Aleppo, about eight miles northeast of Alexandretta. The consular advice describes the situation as extremely precarious. The excitement at the port of Alexandretta is intense, and the presence of the British cruiser Diana at that port is expected to have a tranquillizing effect.

Disturbances were reported from Hadjin, in the northern extreme of the Adana vilayet, where a large Armenian community is counted upon to defend itself.

The runaway continued along Seventh Street until it reached Pennsylvania Avenue. Crossing Policemen Hawkin ran across the street, grabbed hold of the reins and prevented further trouble. The man who was on

His Only Medicine DUFFY'S PURE MALT WHISKY

Mr. L. B. Immell, of Reading, Pa., who is seventy-four years old, strong and vigorous, is loud in his praises of Duffy's Pure Malt Whiskey, which in his declining years is his one medicine. He recommends it to the aged.

"I write, thinking that you might be interested in knowing that my only medicine is Duffy's Pure Malt Whiskey. I am seventy-four years old. I was born February 10, 1835. Am a veteran of the Civil War. I have used Duffy's Pure Malt Whiskey, and have been greatly benefited by it. It is the very thing old people need to build them up in their declining years."

Duffy's Pure Malt Whiskey is a very popular medicine in this city." L. B. IMMELL, Reading, Pa.

Duffy's Pure Malt Whiskey kills the disease germs and keeps the system in a normal, healthy condition. It keeps the old young, the young strong; it is invaluable as a tonic for overworked men, delicate women and sickly children. It is an absolutely pure distillation of malted grain, great care being used to have every kernel thoroughly malted, thus destroying the germ and producing a predigested liquid food in the form of a malt whiskey, which is the most effective tonic-stimulant and invigorator known to science; softened by warmth and moisture, its palatability and freedom from injurious substances render it so that it can be retained by the most sensitive stomach.

If weak and run down, take a teaspoonful four times a day in half a glass of milk or water.

Duffy's Pure Malt Whiskey is sold throughout the world by druggists, grocers and dealers, or shipped direct for \$1.00 per bottle.

If in need of advice, write Consulting Physician, Duffy's Malt Whiskey Company, Rochester, N. Y., stating your case fully. Our doctors will send you advice free, together with an illustrated medical booklet, containing some of the many thousands of gratifying letters received from men and women in all walks of life, both old and young, who have been cured and benefited by the use of the world's greatest medicine.

BARON MONCHEUR'S TRANSFERRED

Belgian Minister Will Leave Washington for Post at Constantinople.

BRUSSELS, April 20.—The appointment of Baron Moncheur, the Belgian minister to the United States, to represent his government at Constantinople was officially gazetted to-day.

A Deserved Tribute. WASHINGTON, D. C., April 20.—Baron Moncheur's proposed transfer from Washington to Constantinople as the diplomatic representative of Belgium is not likely to cause much surprise in local official and diplomatic circles, for the reason that Baron Moncheur has already informed his friends in this city that he was booked for service in Europe in June next. His selection for the post at Constantinople is accepted as a deserved tribute to his faithful service and ability.

In view of existing conditions in Southern Europe and Asia Minor, the Turkish capital is a post of unusual importance in the diplomatic work of Belgium.

Baron Moncheur is one of the most popular members of the local diplomatic colony, and the Belgian legation at 1719 H Street, is one of the socially attractive places of Washington, mainly due to the charming hospitality of the Baroness Moncheur and her daughter, the Baroness Marguerite. The baron has had a distinguished career in the diplomatic service of his country. In 1833 he was an attaché of the Belgian legation to the Hague. In 1837 he was made secretary of the legation at Berlin, and in 1892 was made ambassador to the capital of Mexico.

He was charge d'affaires at Luxembourg for five years, and in 1898 he became minister resident at Mexico. It was while serving at the capital of Mexico that he met his present wife, the daughter of Powell Clayton, United States ambassador to Mexico. In 1901 Baron Moncheur assumed the duties of Belgian minister at Washington, and has served as such ever since.

Up to this time no official information has been received at the State Department regarding the prospective change in the Belgian legation.
